## 1. Increased checked-in MW for Centralised Recovery Facilities

The number of migrant workers (MW) checked-in for Centralised Recovery Facilities (CRF) has increased tremendously. Initially only Cluster 3 (C3) Block 510 was set aside for CRF, a week later we needed to expand and utilize an additional Block 512. The quick take-up of bed spaces led to a very intense and pressurizing workload for our team where more manpower and longer work hours were required to manage the CRF.

The initial logistic was nightmarish with buses arriving at different times and drivers unfamiliar with drop-off locations, and there was only a short learning curve to overcome the difficulty of keeping track of the MW particulars, meal preference, contact number and medical records.

MW conveyed to STL CRF

## 2. Dormitory Recovery Facilities

Cluster 5 Block 510 has been designated as Dormitory Recovery Facilities (DRF) with 625 beds spaces set aside for residents tested Covid positive, C+/Ag+ MW in our dormitory. The number of cases soon increased and we had to immediately put in extra security to control and ring-fenced these DRF residents.

The DRF residents follow the regime of ART test on the 4<sup>th</sup> and 7<sup>th</sup> day and if tested negative, they would exit DRF to resume work.

BLK 520 is designated as DRF for STLodge residents

## 3. Ministerial Visits

Minister Tan See Leng and Senior Minister of State Koh Poh Koon visited our dormitory Sungei Tengah Lodge (STL) on 19 October 2021. The visit started with a briefing of STL facilities and an update on the status of current CRF.

The Ministers proceeded with a walkabout in STL and interacted with the residents. At the beer garden, Minister Tan bought some beers for the MW which was very well received. In the C3 CRF, the Ministers asked the CRF residents on their wellbeing and the living conditions. Generally, the feedbacks were good.

Further along the walkabout, the Ministers checked the meals served to the CRF residents and did a last stop at the On-site Medical Centre (OMC) operated by StarMed to get some feedback on their work in STL.

Ministers visit STL with MOM- ACE, STL Director & STL Co

## 4. Mass Exercise

Mass exercise was scheduled on Sunday 17 Oct 2021 and it was cancelled because of rain. On Sunday 24 Oct 2021, 8 pm the Salvation Army successfully conducted 2 sessions of mass exercise. Each session approximately 60 to 70 participants with safe distances kept.

The mass exercise was well received by the residents. The twist, turns, stretching and dancing to the music were even recorded and posted by residents in Tik-Tok apps.

The participants were rewarded with simple Vitamin C supplements. They enjoyed themselves and it is a break from the boredom of their inactivity during the confinement period.

Mass exercise for residents in STL CRF

## 5. Services and Additional Facilities in CRF

The services provided in CRF includes the following:

- Breakfast 7am/Lunch 12noon/Dinner 5.30pm
- Minimart opening times 2pm to 7.30pm
- ART test (Only for MW with Ag+) 10am to 4pm
- Rubbish clearing time at floor 8am to 9.30am & 1pm to 2pm
- Communal toilet cleaning 6am and 4 pm.

Based on feedback, MOM/ACE has set up a permanent Medical post inside the CRF and this is a welcome feature because it means CRF residents need not exit cluster 3 to go to the OMC operated by StarMed. The MCF operation hours is 0900hr to 1300hr.

Temporary Minimart shop is specially set up in cluster 3 to serve the CRF residents and they can buy essential items plus fruits and snacks.

STL staff in PPE to distribute meal to CRF residents

## 6. Donation

STL would like to acknowledge and thank the donors on behalf of the residents for the donated items like donuts arranged by The Salvation Army, snacks from Thai Embassy and fruits from Singapore Leshan Volunteers Association. These donated items were all distributed to CRF residents, DRF residents and STL residents.
